

Social Media

By: Lexi, Brady, Ollie, and Sabrina

It doesn't feel the best
When you get stressed
On social media

Cyber bullying has to leave
Because it's one of my biggest pet peeves
People are always behind screens saying mean things

Sure computers and phones are fun
But maybe sometimes go for a run
Phones and computer are used every day
But not always in a good way

Social media is always a thought
Did you know it's just a bot
People behind screens are being mean
Is that really who you want to be?

You can talk to people on gaming consoles
It's really not the best
Just play with your friends
And give it a rest

So sometimes get off your devices
And go outside
And make better choices
And stop hearing online voices
