

My Old Life

By Jaiden McLean

I grew up there
I was loved there
I had fun there
I went to school there
I had family there.

She gave me candy there
I remember fun times there
There was this feeling of happiness there
And the happy times that were there were the best times of my life.

When they first came
We played games
One of them had aim
We were the same
And we all danced
And made flames
And had all the fame
Then we became
The best of family.
