

My town's amazing, bet yours is too, but these are the things that we like to do  
We celebrate holidays together as one  
And we have parades to recognize the big ones  
Another thing we do is something really fun  
Santa comes to town to ride around as number-one

Deerfield park is a huge hit too  
Here, the fireworks fly like a bird in the sky for the fourth of July  
This is all great, but we do more  
If you're one who likes sports then this is your pour  
We do soccer and baseball and softball and more

Everyone goes there to hang out with their crew  
Our middle school sports hold practices there too.  
We also have food trucks occasionally  
Whatever you want will be right here with me

Next we have beautiful weather and light  
As the sun greets us every morning  
And the stars are dancing when we fall asleep at night  
Plus, the people in our town are really fun  
And you get to know almost everyone

Now you may know, why I'm explaining the things that we love to do  
Growing up in this small town is a great experience to live through  
The great person I have become from this place  
I am grateful for all the things that have happened to me in this space!!
