

The Big Beautiful Ocean

The big beautiful ocean

Always fun to splash around in

With its sparkling blue waters

And beautiful beaches

The sun beating down on you

Like you're in an oven

The ocean and the shade

Is the only things keeping you cool

The slow waves

Sofly crashing against the shores of the beach

Just like wind

Gently swaying the beach grass

The beach

a care-free trip to paradise

filled with sand to the brim

Like a cup overflowing with water

The sea

Sometimes filled with seaweed

Sometimes crystal clear

But always fun to splash around in

Seashells

As Hard as rocks

Yet as fragile as glass

People collecting them so frequently it's like clock work

The horizon

Too far away to get to

But if you do

It just gets further away
