

Dear Ex Best Friend

Dear Ex best friend
You made me feel like everything was pretend

I felt trapped
Something inside me snapped

Every minute you made me feel sad
Everything about you was bad

We used to be close
But everything froze

If you only knew
What I have gone through

Always telling me to shut up
I couldn't even stand up

Always saying you were alone
But you were always on the phone

Always feeling like a freak
I couldn't even speak

All the promises we made
Never stayed

Always been there for you
Everybody knows it's true

But you were never there for me
Everyone else can agree

Sincerely...
